

CityJSON schema validator

 [cjval](#) v0.6.1 is used

CityJSON v2.0, v1.1, and v1.0 are supported
(including [CityJSONSeq](#) and [Extensions](#))

ⓘ geometries are **not** validated! ([see details](#))

↓ Validation is done locally, files are not uploaded anywhere

The file is 100% valid!

3D_Valuation.json

CityJSON v2.0 (schemas used: v2.0.0)

Extensions:

<https://raw.githubusercontent.com/geospatialstudies/3DValuation/main/extension/3Dvaluation.ext.json>
